[Ex. 6 - Personal Privacy] I don't have good news per se for you on this. To follow up our phone discussion, the NPFC only handles claims for oil spills so there is nothing we can do for you on this if you don't get paid by Freedom Industries. Don't know that you will get much better news from EPA, but I can't speak for them. You should contact Fran Burns (215- 814-3245) to talk about this. FYI, Fran called me just after we talked & he would like to talk w/you about what's going on.

Subject: Freedom Industries, WV

Pat, hope all is well. I was hoping you could point me in the right direction. Clean Harbors is currently working the response to the Chemical release from Freedom Industries into the Elk River in West Virginia. We are working under a signed contract with Freedom Industries directly, but starting to get a feeling that payment may not be guaranteed either by the RP or their insurance company. I would like to know if this release would be covered by the NPFC and if cleanup costs incurred by Clean Harbors might be able to be reimbursed if not by the RP. Can you help by directing me to the correct person within the NPFC to discuss this with? Thanks Scott
